CUSTOM CHART FOR FREEDIVING SUITS

MEASURING INSTRUCTIONS

Tapes can stretch over time, check periodically against a yardstick.

When taking measurements for a custom wetsuit, customer should be in a bathing suit. When taking measurements for a customer drysuit, customer should be in undergarments to be worn under the drysuit when diving. For circumference measurements, tape should be snug but not pulled tight. Make crotch measurements with a pen or ruler held at the customers highest point on the crotch. Record the customer's height, weight, and age is very important. A brief coment on the customers physical condition would be helpful. HIP measurement is widest part of hip at the crotch level.

SEND TO: OCEANER SPORTING GOODS (604) 434-0092 fax or email oceanersales@oceaner.com

Dealer: _____ Customer Name: _____

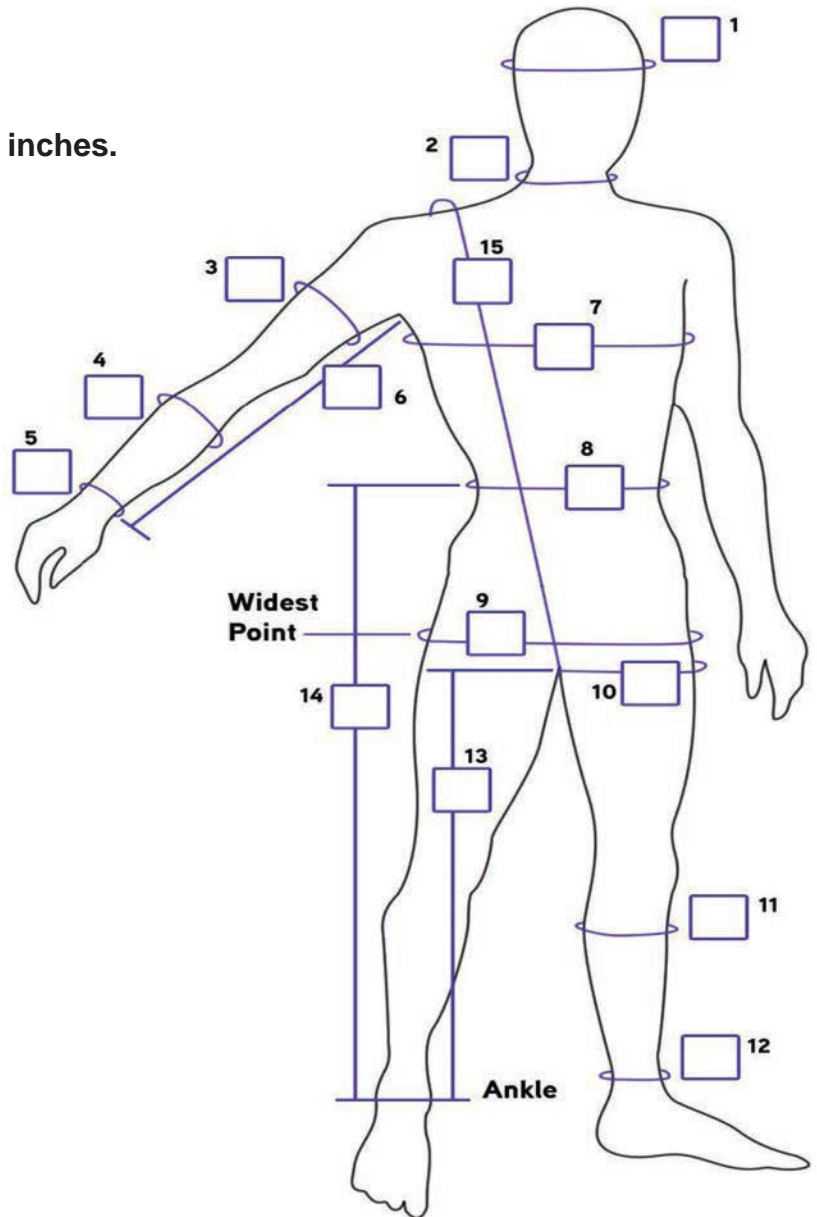

Measured by: _____

Clothes worn while being measured: _____
